

Summary Document

EES main report

Volume 1:

- Chapter 1. Introduction
- Chapter 2. Project rationale
- Chapter 3. Project development
- Chapter 4. Project description
- Chapter 5. Key approvals and assessment framework

Volume 2:

- Chapter 6. Marine biodiversity
- Chapter 7. Terrestrial and freshwater biodiversity
- Chapter 8. Surface water
- Chapter 9. Groundwater
- Chapter 10. Contamination and acid sulfate soils
- Chapter 11. Greenhouse gas
- Chapter 12. Air quality
- Chapter 13. Noise and vibration
- Chapter 14. Landscape and visual
- Chapter 15. Transport
- Chapter 16. Safety, hazard and risk
- Chapter 17. Land use
- Chapter 18. Social
- Chapter 19. Business
- Chapter 20. Agriculture
- Chapter 21. Aboriginal cultural heritage
- Chapter 22. Historic heritage

Volume 3:

- Chapter 23. Climate change risk
- Chapter 24. Sustainability
- Chapter 25. Environmental Management Framework
- Chapter 26. Stakeholder engagement
- Chapter 27. Conclusion

Technical reports

- | | | |
|--|----------------------------|---------------------------------|
| A. Marine biodiversity | F. Greenhouse gas | M. Social |
| B. Terrestrial and freshwater biodiversity | G. Air quality | N. Business |
| C. Surface water | H. Noise and vibration | O. Agriculture |
| D. Groundwater | I. Landscape and visual | P. Aboriginal cultural heritage |
| E. Contamination and acid sulfate soils | J. Transport | Q. Historic heritage |
| | K. Safety, hazard and risk | |
| | L. Land use | |

Attachments

- | | |
|---|-------------------------------------|
| I. Matters of National Environmental Significance | VI. Draft planning scheme amendment |
| II. Legislation and policy report | VII. Map book |
| III. Environmental risk report | VIII. Works Approval Application |
| IV. Climate change risk report | IX. Pipeline Licence Application |
| V. Community engagement reports | |

Contents

Chapter 6 – Marine biodiversity	6-1	Chapter 9 – Groundwater	9-1
6.1 Overview	6-1	9.1 Overview	9-1
6.2 Methodology	6-10	9.2 EES evaluation objective	9-2
6.3 Existing conditions	6-19	9.3 Methodology	9-2
6.4 Risk assessment	6-61	9.4 Study area	9-3
6.5 Construction impacts	6-69	9.5 Existing conditions	9-4
6.6 Operation impacts	6-69	9.6 Risk assessment	9-10
6.7 Potential impacts on Ramsar values	6-116	9.7 Construction impacts	9-10
6.8 Mitigation measures	6-118	9.8 Operation impacts	9-16
6.9 Conclusion	6-122	9.9 Mitigation measures	9-17
		9.10 Conclusion	9-17
Chapter 7 – Terrestrial and freshwater biodiversity	7-1	Chapter 10 – Contamination and acid sulfate soils	10-1
7.1 Overview	7-1	10.1 Overview	10-1
7.2 EES evaluation objective	7-2	10.2 EES evaluation objective	10-2
7.3 Methodology	7-2	10.3 Methodology	10-2
7.4 Study area	7-3	10.4 Study area	10-3
7.5 Existing conditions	7-4	10.5 Existing conditions	10-3
7.6 Risk assessment	7-30	10.6 Risk assessment	10-17
7.7 Construction impacts	7-42	10.7 Construction impacts	10-21
7.8 Operation impacts	7-58	10.8 Operation impacts	10-25
7.9 Character of Western Port Ramsar site (Risk ID FF19, FFO6 and FFO7)	7-63	10.9 Mitigation measures	10-26
7.10 Cumulative impacts	7-66	10.10 Conclusion	10-30
7.11 Mitigation measures	7-67		
7.12 Offsets	7-74	Chapter 11 – Greenhouse gas	11-1
7.13 Conclusion	7-76	11.1 Overview	11-1
		11.2 EES evaluation objective	11-2
Chapter 8 – Surface water	8-1	11.3 Methodology	11-2
8.1 Overview	8-1	11.4 Study scope	11-2
8.2 EES evaluation objective	8-1	11.5 Existing conditions	11-4
8.3 Methodology	8-2	11.6 Risk assessment	11-5
8.4 Study area	8-2	11.7 Construction impacts	11-8
8.5 Existing conditions	8-3	11.8 Operation impacts	11-10
8.6 Risk assessment	8-13	11.9 Mitigation measures	11-13
8.7 Construction impacts	8-15	11.10 Conclusion	11-14
8.8 Operation impacts	8-17		
8.9 Mitigation measures	8-18		
8.10 Conclusion	8-21		

Chapter 12 – Air quality	12-1	Chapter 15 – Transport	15-1
12.1 Overview	12-1	15.1 Overview	15-1
12.2 EES evaluation objective	12-2	15.2 EES evaluation objective	15-1
12.3 Methodology	12-2	15.3 Methodology	15-2
12.4 Study area	12-3	15.4 Study area	15-2
12.5 Existing conditions	12-4	15.5 Existing conditions	15-2
12.6 Risk assessment	12-8	15.6 Risk assessment	15-8
12.7 Construction impacts	12-10	15.7 Construction impacts	15-11
12.8 Operation impacts	12-12	15.8 Operation impacts	15-19
12.9 Mitigation measures	12-18	15.9 Residual impacts and legacy impacts	15-23
12.10 Conclusion	12-20	15.10 Cumulative impacts	15-23
Chapter 13 – Noise and vibration	13-1	15.11 Mitigation measures	15-23
13.1 Overview	13-1	15.12 Conclusion	15-25
13.2 EES evaluation objective	13-2	Chapter 16 – Safety, hazard and risk	16-1
13.3 Methodology	13-2	16.1 Overview	16-1
13.4 Study area	13-3	16.2 EES evaluation objective	16-3
13.5 Existing conditions	13-4	16.3 Methodology	16-3
13.6 Risk assessment	13-7	16.4 Hazard identification	16-5
13.7 Construction impacts	13-10	16.5 Quantitative Risk Assessment results	16-7
13.8 Operation impacts	13-18	16.6 Safety in design and operation	16-8
13.9 Mitigation measures	13-23	16.7 Emergency management and response	16-10
13.10 Conclusion	13-28	16.8 Mitigation measures	16-10
Chapter 14 – Landscape and visual	14-1	16.9 Conclusion	16-12
14.1 Overview	14-1	Chapter 17 – Land use	17-1
14.2 EES evaluation objective	14-1	17.1 Overview	17-1
14.3 Methodology	14-2	17.2 EES evaluation objective	17-2
14.4 Existing conditions	14-4	17.3 Methodology	17-2
14.5 Construction impacts	14-6	17.4 Study area	17-3
14.6 Operation impacts	14-7	17.5 Existing conditions	17-3
14.7 Mitigation measures	14-13	17.6 Risk assessment	17-20
14.8 Conclusion	14-14	17.7 Impact assessment	17-21
		17.8 Construction impacts	17-21
		17.9 Operation impacts	17-23
		17.10 Mitigation measures	17-25
		17.11 Conclusion	17-26

Chapter 18 – Social	18-1	Chapter 21 – Aboriginal cultural heritage	21-1
18.1 Overview	18-1	21.1 Overview	21-1
18.2 EES evaluation objective	18-1	21.2 EES evaluation objective	21-2
18.3 Methodology	18-2	21.3 Methodology	21-2
18.4 Study area	18-3	21.4 Study area	21-2
18.5 Existing conditions	18-4	21.5 Existing conditions	21-2
18.6 Project benefits	18-9	21.6 Risk assessment	21-12
18.7 Construction impacts	18-9	21.7 Construction impacts	21-14
18.8 Operation impacts	18-13	21.8 Operation impacts	21-17
18.9 Mitigation measures	18-14	21.9 Mitigation measures	21-17
18.10 Conclusion	18-16	21.10 Conclusion	21-18
Chapter 19 – Business	19-1	Chapter 22 – Historic heritage	22-1
19.1 Overview	19-1	22.1 Overview	22-1
19.2 EES evaluation objective	19-1	22.2 EES evaluation objective	22-1
19.3 Methodology	19-2	22.3 Methodology	22-2
19.4 Study area	19-2	22.4 Study area	22-2
19.5 Existing conditions	19-5	22.5 Existing conditions	22-2
19.6 Risk assessment	19-11	22.6 Risk assessment	22-12
19.7 Construction impacts	19-12	22.7 Construction impacts	22-14
19.8 Operation impacts	19-14	22.8 Operation impacts	22-16
19.9 Mitigation measures	19-14	22.9 Maritime heritage impacts	22-16
19.10 Conclusion	19-16	22.10 Mitigation measures	22-16
Chapter 20 – Agriculture	20-1	22.11 Conclusion	22-17
20.1 Overview	20-1		
20.2 EES evaluation objective	20-1		
20.3 Methodology	20-2		
20.4 Study area	20-2		
20.5 Existing conditions	20-4		
20.6 Stakeholder engagement	20-10		
20.7 Risk assessment	20-10		
20.8 Construction impacts	20-12		
20.9 Operation impacts (Risk IDs AG6 and AG7)	20-14		
20.10 Mitigation measures	20-15		
20.11 Conclusion	20-17
