

**GAS IMPORT JETTY AND PIPELINE PROJECT  
ENVIRONMENT EFFECTS STATEMENT  
INQUIRY AND ADVISORY COMMITTEE**

**TECHNICAL NOTE**

**TECHNICAL NOTE NUMBER:** TN 002

**DATE:** 25 September 2020

**LOCATION:** Crib Point Jetty Works

**EES/MAP BOOK REFERENCE:** Chapter 11, tables 11-4 and 11-6,

**SUBJECT:** Response to RFI #058

**SUMMARY:** Clarification regarding error in emission figures

**REQUEST:** Reconcile and explain the figures for operational emissions from the Gas Import Jetty Works in open loop mode contained in Tables 11-4 and 11-6.

**NOTE:**

**Clarification on greenhouse gas figures**

1. The figures in Table 11-6 should reflect the total of the Scope 1 and Scope 2 operational values from Table 11-4 and 11-5. There has been an error in drafting where the values for total greenhouse gas emissions in Table 11-6 do not appear to have been updated.
2. The correct numbers for greenhouse gas emissions are included below (refer to highlighted text).
3. Note, this does not change the values in the second column (% of Victoria’s annual total).

Emissions source	Values included in exhibited report	Corrected values	No change to exhibited report
	Total greenhouse gas emissions (kilotonnes CO <sub>2</sub> -e pa)	Total greenhouse gas emissions (kilotonnes CO <sub>2</sub> -e pa)	% of Victoria’s annual total
Victoria 2017 (Scope 1 + 2)	110,200	110,200	100%
Closed loop (Scope 1 + 2)	247.1	249.9	0.23
Open loop (Scope 1 + 2)	66.4	69.4	0.06

**CORRESPONDENCE:** Nil
